About Cuisine Solutions

Cuisine Solutions is an international team of award-winning chefs who were among the first in the world to recognize the power and precision of the sous vide process. Our classically-trained chefs develop recipes that allow fellow professional chefs and passionate foodies to present restaurant-quality dishes faster and more economically—with consistently excellent results.

Major retail chains and top specialty retailers alike offer their customers memorable meals in minutes with our restaurant-quality fresh and frozen packaged foods. They also rely on our sous vide products to expand their prepared deli foods and Home Meal Replacement (HMR) offerings and to supply their private-label lines with premium-quality selections.

What is Sous Vide?

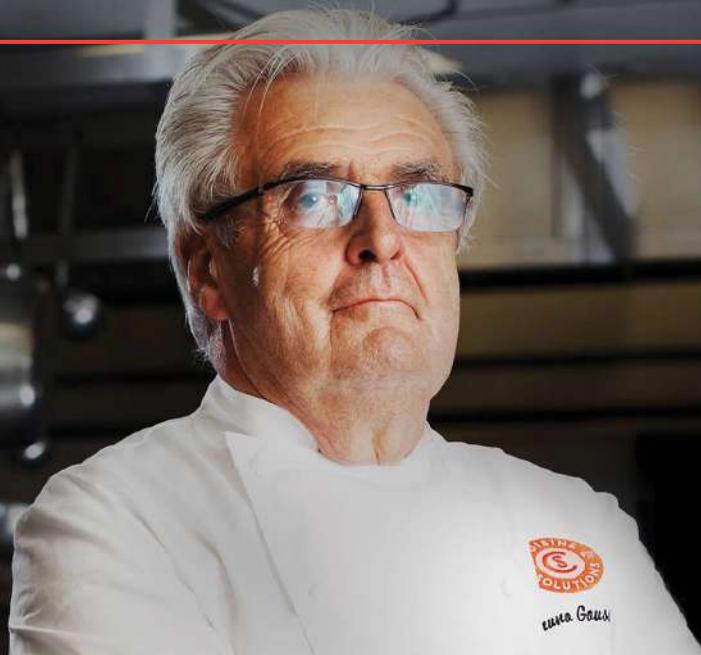

Sous vide – French for "under vacuum" – is an innovative cooking technique we've been perfecting and pioneering since 1971. Food is vacuum sealed in a specially-designed pouch and cooked in water at a precise time and temperature until perfectly cooked, and then flash-frozen or refrigerated. No other cooking method produces such textures and flavors or maintains the natural integrity of food sources so well. That's why our products are trusted by the world's top chefs and favored by passionate foodies.

Advantages of The Method

"The power of sous vide is that it enables you to precisely prepare food with more tenderness and flavor than can be obtained through traditional cooking techniques. Sous vide makes it possible to unlock the full potential of food."

DR. BRUNO GOUSSAULT, SOUS VIDE PIONEER

Flavor

Our premium ingredients, chef-created recipes and sous vide expertise bring your customers the finest flavors and textures in prepared foods, period.

Flexibility

Most products can be plated immediately after reheating or with finishing touches at the chef's discretion. And our chef-driven R&D and Black Ops teams create custom products to suit any need.

Consistency

Once our chefs create a recipe, our precise sous vide method allows us to replicate the recipe over and over for an excellent outcome every time – whether you're serving dinner for two or a banquet for 2,000.

Safety

Vacuum-sealed, fully pasteurized and cooked at precise temperatures in our BRC-FQI-certified facilities, our foods are naturally nutritious and wholesome, with no need for preservatives.
